ngboat tra n leaves Eastern Maine Railway D pot every day on arrival of steamer from Bucksport. Tickets will take passengers to Bangor. Tickets to steamer at Bucksport. Tickets for sale at BANGOR ticket office in depot. Passengers will be charged free of expense. During the winter months extra cars will be run on the Railway free of expense.

ing the Steamers of this line have been put in first class order, arriving in Boston early in the morning, thus avoiding the discomforts of night changes and the long railroad ride into the city.

FOR PORTLAND

Freight will be forwarded in connection with steamer leaving Bangor Monday morning, connecting at Rockland with steamer for Portland and the same night. Passengers leaving Bangor Monday morning will take steamer for Portland, arriving in New York, and baggage checked through. H T SANBORN, Agent, Bangor.

INE STEAMSHIP COMPANY.

-Weekly Line to New York

Passenger Steamers and Freights.

Will until further notice leave Franklin Wharf, Portland, every MONDAY and THURSDAY at 5 P M, leave Pier 37 East River New York every TUESDAY and FRIDAY at 4 P M.

In summer months these steamers will call at Newport, Vineyard Haven on their passage to and from New York. Price including state rooms $5.

These steamers are fitted up with fine accommodations for passengers making this a very desirable route for travellers between New York and Portland. Goods forwarded to and from Portland at low rates. Freight received to-day will be delivered in season for customers in Boston the next morning.

On and after May 1st, no passengers will be carried on these steamers.

For freight or passage apply to

ERASTUS CORNING, General Agent, Portland.

BOSTON,

A STEAMER FROM PORTLAND.

The first-class steamers of this line leave Franklin Wharf, Portland, every evening at 7 o'clock (Sundays excepted) for Boston, where connection is made with the cars for all points South and West.

Tickets for sale at M C E R Station, and at the offices of the *Inside Line*.

This line has superior advantages to those traveling East, as it is but few hours in Portland and avoids the necessity of any change in cars, thus affording a saving in time, and the inconvenience of arriving in Boston at midnight.

R RENEWER

rectly adapted to restore to the first successful remedy for the natural color of the hair, with all its original beauty. It has had many imitators, but none will take the place of the genuine. The proper treatment of the hair with HALL'S HAIR RENEWER has caused and will spread its fame and usefulness over the globe. It eradicates dandruff, cures humors, and prevents baldness. It has been surprised at the wonderful results in some cases where it has been used for restoring gray hair to its natural color. It is the best article ever offered to the public for the purpose, and has been in use for many years. Don't forget that on the first day of May last, no passengers will be carried on these steamers.

For sale by all druggists. For sale at M C E R Station, and at the offices of the *Inside Line*.

AN ILLUSTRATED WEEKLY—16 PAGES

SUITED TO BOYS AND GIRLS OF FROM SIX TO SIXTEEN YEARS OF AGE

Vol IV commences November 7, 1882.

The Young People has been from the first successful beyond and in point of interest has fully realized its original design. It has a distinct purpose to which it steadily adheres—that, namely, of supplanting the vicious papers for the young by a paper more attractive, as well as more wholesome.—Boston Journal

For truthful elegance of contents, and conclusiveness generally it is unsurpassed by any publication of the kind ever brought to our notice.—Pittsburgh Gazette

"NO USE FOR THEM."

Concerning Certain Relics of the Past—Dogs that have had their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day are built upon the same general principle, yet the machine with which the great engineer astonished his age is only as an illustration of the beginning of the invention. There were plasters before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians, and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine, but at this point all comparison ends, and contrast begins. For example

The old plasters were slow in their action, the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart relief, temporary relief in cases easy of treatment, the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers, the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson's goes on its way winning golden opinions from all sorts of people.

Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the centre. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE CENSUS.

Valuable Information Gleaned from Special Bulletins.

The different bulletins issued out of the Census Bureau from time to time contain information of interest to the people. A bulletin giving the area in square miles of different classes of settlement in the States and Territories has been issued, but it is too extensive to be reproduced in full. The total settled area of New York State is 49,420 miles. There are 3 800 square miles, containing 6 to 18 people to the square mile, 6 200 square miles containing 18 to 45 people to the mile, 33 000 square miles with 45 to 90 people to the mile and 2 420 square miles with a population of above 90 to the mile. The settled area of New Jersey is 33 100 square miles, Pennsylvania, 46 000 square miles, Texas 124 900 square miles, Tennessee 41 750 square miles, Rhode Island, 1 085 square miles, Missouri 68 735 square miles, Massachusetts, 8,840 square miles, California 75 980 square miles. The total settled area of the country is 1 569 070 square miles. There are 394 830 square miles with a population of 2 to 6 to the mile, 373 890 miles with a population of 6 to 18 to the mile, 302 300 miles with a population of 18 to 45 to the mile, 232 010 miles with a population of 45 to 90 to the mile, 24,500 miles with a population above 90 to the square mile.

POPULATION OF CITIES

Bulletin 274 gives a statement of the population of the one hundred principal cities of the United States by aggregate and by details and the increase in ten years. For instance New York City has a population now of 1,206,299, whereas in 1870 the population was 942 292. Boston ranks fifth with a population of 362 839, of which 172 268 are males and 190,571 females. The population of San Francisco is 233 900 and the number of Chinese is stated at 21 744. The City of Oakland, in California, has a population of 31 000 having more than trebled in ten years. The Chinese population numbers 1 974. The City of Newark has a population of 136 508. Buffalo, 135 104, Jersey City 120 723, Albany, 90 758, Rochester, 89 366, Troy 56,747, Hoboken 34 899, Lowell, 33 914, Baltimore 332 313, St Louis 350 518. There are more males than females in the United States the relative figures being, males, 25,618 820, females, 24 636 963. The native population is 43 475 840, foreign 6 779,843, white 43 402 976, colored, 6 080 793, Chinese, 105 465, Japanese, 148, Indians, 66 407. The State of California contains 75 132 Chinese, 86 Japanese and 16 277 Indians. The population of the States is 43 871 340 and of the Territories 784 143. The total increase of population in ten years is about 12 000 000. The States contain 93,783 Chinese, and the Territories, 11 683. Oregon has 9 510 Chinese Nevada 5 416, Arizona, 1 630, Idaho, 3 379, Washington Territory, 3 186.

FAMILIES AND DWELLINGS

The total area of the States and Territories is 2 900 170 square miles. The number of families is stated at 9 945 916, dwellings, 8 956 812, persons to a square mile, 1,723, families to a square mile, 3 43, dwellings to a square mile 3 02, acres to a person 37 01, acres to a family, 186 62, persons to a dwelling, 5 60, persons to a family, 5 04. There are 1 078 895 families in New York State, 203 809 in New Jersey, 840 452 in Pennsylvania, 136 885 in Connecticut and 379 710 in Massachusetts. New York State contains 772 511 dwellings, New Jersey, 190,403, Pennsylvania 776,124, Connecticut 108 458 and Massachusetts 281 158. In stating the area by square miles the land surface only is given, and the total is exclusive of the Indian Territory and tracts of unorganized territory, aggregating 69 830 square miles. There is great illiteracy. Of 36 761 607 persons of ten years of age and upward 4,923 461 cannot read, and 6 239 908 cannot write. The number of white people who cannot write is 5,019 380, and of colored persons, 3,220,878, or 70 per cent of the colored population. The native whites who cannot write, number 2,255 460, and the foreign whites, 763,920. The facts of illiteracy applicable to New York State are these: Number that cannot read, 166 635, number that cannot write, 219 600; white persons who cannot write, 208,175; colored, 11 425, native population who cannot write, 59,510; foreign, 148 659. Eighty per cent. of the colored population of Alabama cannot write, 81 per cent is the proportion in Georgia, 79 per cent. in Louisiana, 72 per cent. in New Mexico, 77 per cent. in North Carolina, 75 per cent. in Mississippi, and 70 per cent in Kentucky and Florida.

THE VOTING POPULATION.

The males of voting age in the United States number 12 830 349, classified as follows. Natives, 8 270,518, foreign, 3,072,487; colored, 1,487,343. Out of a voting population in Alabama of 359,884, 213,432 are colored people. New York State has a voting population of 1,408,751, native, 882,054; foreign, 526,697; colored, 30,059. The voting population of New Jersey is 300,635; 190,658 being native 99,309 foreign and 10,670 colored. Pennsylvania stands next to New York in the magnitude of its voting population, Illinois ranking third. Of the population of Alabama born in the State 508,917 are white and 607,716 black. In South Carolina the white people, born number 362,577, and the colored people, 568,886; Florida, 84,678 white, and 98,863; 818,866,272. The colored. These are the only States in which more colored people than white people have been born.

THE SEXES

The males outnumber the females not quite 1 000 in the aggregate of population. The sexes seem to have stood in that numerical relation for a decade. Alabama has a majority of females and so have Connecticut Georgia, Louisiana Maine, Maryland Massachusetts, New Hampshire, New Jersey, New York, North Carolina Pennsylvania, Rhode Island South Carolina, Tennessee Virginia. The greatest majority is evident in New York where the males number 2 506 282 and the females 2 677 527, being a majority of over 71 000 for the gentle sex. The females have gained in the last ten years. In 1870 there were 102 603 females to every 100,000 males. Now there are 102 843 females to every 100,000 males. The predominance of females is in the Atlantic region. In the whole tier of States which lie along this coast with the exception of Delaware females are in excess. The rate of increase in New York is at the rate of 240 females to every 100 000 males. The lowest rate of increase, fourteen is in Maine and the greatest 20 384 in Idaho. The lowest rate of decrease in females, 134 was in Indiana, and the highest rate of decrease, 19 394 in Colorado. In the United States, as a whole there is a loss of 1 282 in the ratio on 1 000 000 males in the last decade.

The total white population of the United States is 43 400 870 and of colored people 6 077 151. There are 15,153 colored persons to every 100 000 whites an increase of 62 on 100 000 since 1870. The relative gains during the decade have apparently been made in the South—the former slave holding States. Of the nine of these States eight stand at the head of the list having made relative gains ranging from 944 to nearly 11 000. The Census Department is of opinion however, that these apparent gains are due to the imperfections of the census of 1870. In the former slave States that have lost Texas and Florida lead. Both these States have received heavy white emigration from other parts of the country. They have been the scene of rapid development.

NEWSPAPER STATISTICS

The newspaper census will be found interesting considered in connection with the statistics of prevailing literacy. The number of daily papers in the United States is 962, morning papers, 416, evening papers 546. There are 662 weekly papers, 44 semi weekly papers 39 tri weekly papers, and 138 Sunday papers. There were 447 papers consolidated with existing journals, 114 were established and 80 suspended. Of papers published in foreign languages 81 are in the German language and 111 weeklies and other papers are connected therewith. There are nine other journals in foreign languages—five in French one Spanish daily in California a Norwegian and a Bohemian in Illinois and a Bohemian in New York. The average subscription price of daily papers is $7 83 and of weeklies $1 82. The average circulation of daily papers is 2 800, weekly papers connected with dailies, 2 332, semi weekly papers connected with dailies 3 909, tri weekly papers connected with dailies 900. Sunday papers connected with dailies, 8 477. German daily papers 270, weeklies connected with German daily papers 1 656. Aggregate circulation of daily papers 4 981 187 weekly papers 3 121 890 semi weekly papers 156 344 tri weekly papers 33 800 Sunday papers 724 071, German daily papers, 321 204. Germno weeklies, 487 793. Annual aggregate of daily papers circulated 1 127 337 350 weeklies, etc circulated 216 763 880. New York leads in the line of newspaper publications. The daily circulation is 981 620 and the aggregate for the year, 321 093 31. The aggregate annual circulation of weeklies in New York is 53 229 105. The census bureau does not guarantee the correctness of the figures owing to the difficulty of securing accurate information from the proprietor and publishers. The figures however have been carefully revised and Mr North the special agent thinks the methods adopted have secured a closer approximation to the truth than has ever before been reached. While the average cost to the subscriber is 2½ cents per copy the average retail per copy for the country is 4¼ cents, the largest average for a State being New York where it is 12 cents and the lowest Delaware where it is 1¼ cents per copy. The total number of days of publication in the country during the census year is placed at 303 which includes 52 Sundays. 80 daily newspapers which were suspended and the 114 which were established.

INCREASE IN FARMS AND PRODUCTIONS

The number of farms in the United States in 1880 was 1 449 073 1860 2 044 077, 1870, 2,659 986, 1880 4 008 907. The rate of increase in the last decade was 51 per cent. New York's increase was 11 per cent. The greatest increase was in Dakota 914 per cent. The comparative production of cereals in the aggregate forms an interesting exhibit.

THE SENTIMENT OF WASHINGTON COUNTY ON THE CONGRESSIONAL APPORTIONMENT.

[From the Calais Advertiser, Jan. 31.]

The strangest proposition as to Congressional apportionment is to detach Piscataquis from the Eastern district and annex it to the Kennebec district. Aside from all politics there are no two counties whose interests are so closely interwoven as those of Piscataquis and Penobscot. On business grounds they should go together. So far as population is concerned the Kennebec district and the Eastern district of Penobscot, Aroostook and Washington are about the same size. Whichever gets Piscataquis will be the largest district to that extent, and one of the two must be largest. Business grounds, therefore, ought to hold Piscataquis with Penobscot. Further than this we know of no obligation on the part of Republicans to go out of the plain path of business and common sense in order to injure their own party by giving the Democrats a chance to carry the Eastern district.

We would not gerrymander in the interest of either party, and especially of our opponents, for that is silly as well as wicked. Washington county does not share Mr. Bowers' alleged fears of Bangor. This county has always been able to secure its just rights in all party matters, and will find a way to do so in any district it is placed in. Our people rather like to go to Bangor to conventions, are always well used, and have always found Penobscot Republicans persistent in asserting their own claims but just to other localities. If they cease to be so the voters can remedy the difficulty when it arises. The district of Piscataquis, Penobscot, Aroostook and Washington will make a magnificent one, too large to be "bossed" by Bangor or Houlton either, and Mr. Boutelle's personal interests or Mr. Powers' personal prejudices should not be allowed in any way to affect the judgment of the Legislature.

THE FREE TRADE CRANKS.

From the Louisville Post (Dem.)]

There are some cranks and bigots who wish to go to extremes, and reduce the tariff at once to a revenue basis. This would close our manufactories, stop the development of our milling interests, shut up our workshops, and drive out of employment millions of workmen who depend upon their daily work for their daily bread. We should have bankrupts by the millions instead of by the hundreds. We should have riots that could not be suppressed by any military force at the command of the Government. The whole country would be thrown into confusion, and deluged with blood. No man's property would be safe, with a starving population thronging our streets. The picture is true to the letter, and no one but a lunatic or a cold-blooded adventurer can contemplate it with other feelings than dismay and horror. But it will never be realized, because there are not enough cranks in Congress or out of it to bring about such havoc and ruin. No living man in this country will ever see an American congress passing a tariff law for revenue only.

The late ex-Congressman Lewis Selye, of Rochester, began business in that city as a common blacksmith, but soon rose to be the leading manufacturer there of edged tools and engines. During the later years of his long and useful life he was prouder than of anything else of the fine double rows of shade trees extending the entire length of Lake avenue, which he had himself planted, and at his own expense. He was familiarly known as "Old Broad Tire" from the fact that as Alderman he had secured the passage of an ordinance requiring broad tires on the wheels of vehicles used for carrying heavy loads.

District Attorney Corkhill of Washington, will give a complimentary dinner to General Sherman on the evening of February 8; that date marking the General's sixty-third birthday and practical retirement from the Army. Among the guests expected to be present are the Hon. James G. Blaine, Justices Waite, Miller and Harlan, and Generals Grant and Sheridan. A correspondent of the *Philadelphia Press* remarks that the friendly affection existing between Generals Sherman and Sheridan is closer than the world supposes. They correspond like school-day lovers, and are in close accord on every question. So chivalrous is the elder chieftain in his regard for his successor that he is said to have asked for a change in the law, so that his own rank of General, borne only by himself and General Grant, may not now die out, but descend to "Gallant Little Phil."

The recent report of the Postmaster General of England furnishes some excellent information and valuable statistics concerning the operation and success of underground telegraphy in Great Britain. Within a radius of four miles of the General Postoffice in London there are 1,338 miles of wire under ground and only 500 above ground. The same district also contains about 600 miles of underground private wires. There are thus nearly 2,000 miles of buried wires within the small area described by a four-mile radius from the London postoffice, and not one of these systems is said to interfere with another. The local telegraph service of London is probably the best in the world, and its excellence is largely due to the complete insulation of the wires. In this connection it is interesting to know that an experiment in the same direction is now being made in the construction of the underground telegraphic connection between Marseilles and Paris. The cable is inclosed in a cast-iron pipe, which is laid nearly six feet below the surface of the ground, and which, at intervals of about 350 yards, is provided with cast iron boxes. The latter are so constructed that they can be readily inspected when required, thus presenting no very great difficulty in case of repairs. The cost of the whole work is estimated at about $8,000,000. Underground telegraphy is no doubt more expensive than over land, but it is more durable and less liable to interruption. The time will come when all the wires in great cities will go under ground, but the telegraph companies resist the movement; first, because it involves so much expense; and second, because it is so far only an experiment in this country.

Gladstone is said to be rapidly regaining health at Cannes. He says he feels fully ten years younger and wants to return to London before Parliament meets, though his friends are resolved to keep him where he is.

DEMOCRATS TURNED PROTECTIONISTS.

THEIR VOTES DEFEAT SEVERAL TARIFF REDUCTIONS.

[Special despatch to the Boston Journal.]

WASHINGTON, Jan. 31. Little progress was made to-day on the House Tariff bill. Legislative proceedings were suspended for the eulogies upon the late Representative Orth. Seventeen items were passed in Schedule A. One hundred and eight items of that schedule remain to be considered. Early in the day the Democrats had a majority, and Mr. Carlisle's motion to reduce the rate on alum from sixty to forty cents was carried, 65 to 62. The schedule imposed ten per cent. on quinia and cinchonidia. Mr. Tucker moved to place those articles on the free list. This was done by 108 to 57—twenty-five Republicans voting in the affirmative. It was asserted that unless the duty should be imposed the quinine manufacturers would be compelled to abandon business. It was asserted as positively that in the last four years, during which quinine has been on the free list, two new manufactories have been established. An amendment proposed by Mr. Kelley to the mineral waters item was adopted.

The duty on imitation and artificial mineral waters in bottles or jugs, containing not more than a quart each, shall be three cents per bottle or jug; and three cents for each additional quart or fraction, and no duty is to be imposed on the bottles or jugs. A proposition made by Mr. Kasson to place barytes, upon which the committee recommended a duty of two-fifths of a cent a pound, on the free list, was opposed by Mr. Tucker among others. The barytes industry in Virginia is one of some importance, and Mr. Tucker pleaded for it with all the strength of an avowed protectionist. His ox is gored as to sumac. Two other free traders or extreme revenue reformers, Roscenans and Berry of California, also came to the rescue of the borax industry in that State, and through their efforts, assisted by Mr. Page, the item was so amended as to impose a duty of five cents on pure boracic acid and on refined borax and three cents on borate of lime and crude borax and all commercial boracic acid. The Democrats are protectionists whenever the interests of their section are affected. On motion of Mr. Kasson, the rate on whiting and paris white was reduced from three-quarters to half of one cent a pound. Mr. Carlysle made an effort to have the duty on the same article ground in oil reduced from one cent to three-quarters of a cent per pound, but failed, as also did Mr. Thompson, of Kentucky, on an amendment imposing a duty of ten per cent. ad valorem.

SLIM CHANCE FOR THE HOUSE BILL.

The impression that the bill will fail for want of time to pass it appears to be gaining strength as members realize the endless task before them, while there are many Democrats who would be glad to see the measure passed by this Congress so as not to be a disturbing element in the next one, and while they still hope that some tariff revision will be enacted, few of them expect the pending House bill will be adopted. There is talk of an effort to pass the Internal Revenue and tariff bill now before the Senate through the House under a suspension of the rules. Several prominent Democrats, in conversation with leading Republicans, express the opinion that such a movement would succeed. At the present rate of progress, schedule A of the House bill will not be finished this week, two days having already been spent on less than one third of it.

THE RECENT COLD SPELL AND THE ICE CROP.

The "cold wave" which has just passed across the continent was worthy of careful chronicling by metrological observers. As depicted on the Government weather maps it covered at one time nearly the whole country from the Rocky Mountains to the Atlantic coast, the central part of "crest" being then near the mouth of the Ohio river, where the barometer was up to 30 75 inches. The general line of its movement ran from the far Northwest toward the Eastern Gulf States, and its chilling effects no doubt were felt in the West Indies and probably in Mexico. The prolonged influence of this cold spell (which produced freezing weather lasting four consecutive days over the whole eastern half of the country lying north of the thirty-fifth parallel) has been ample of itself to make an excellent ice crop. There can be, therefore, no excuse for high prices for ice next summer if ordinary care is now taken to harvest the crop. It is not improbable that more ice making weather is in store for all the States north of the Carolinas before the present season closes.—*N. Y. Herald.*

A point in etiquette recently decided a law suit in a queer way. A traveller on a German railroad train attempted to eat a lunch while on the journey. While putting a piece of bologna sausage in his mouth the train stopped suddenly, causing his cheek to be badly cut on the edge of his knife, which he was using. The man sued the company for damages, but his claim was not sustained, on the ground that it is a breach of etiquette to eat with a knife.

Richard K. Fox, proprietor of the *Police Gazette*, has been arraigned in New York for "promoting and aiding" prize fighting. It is to be hoped that he will be put under such heavy bonds that he will consider it prudent to take no further steps towards bringing about a fight between Sullivan and the Australian half-breed. It will be a disgrace if, after such ample warning, these two brutes are allowed to meet.

A Bath lady in Washington writing to us on business, takes occasion to say: The State of Maine is to be congratulated on the re-election of Hon. Wm. P. Frye to the U. S. Senate. No man stands higher in the National Congress. I heard a gentleman high in official position remark this morning that "Maine might justly be proud of her Senators,—both straightforward, honorable gentleman—upon whose judgment it was safe to rely."—*Bath Times.*

"WILD REVERBERATIONS!"
About the wildest of them is the statement that there is a better boot in the market than the time-tried favorite in which we are agents for, and anyone who will swallow such a yarn, would probably accept a missing circular as Gospel truth. Don't believe any such trash for there

MAINE NEWS.

FROM THE STATE CAPITAL.

DOINGS OF THE LEGISLATURE.

Senate.

AUGUSTA, Feb. 1. In the Senate a debate took place on the House bill to restore the salary of the Judge of the Superior Court of Cumberland county. The bill was passed to be engrossed.

A bill was reported from the committee to provide for the annual examination of the accounts of the State Treasurer providing that the Governor shall appoint three persons to make an annual examination.

A bill was reported from the committee to establish a fertilizer central and agricultural experiment station. It is to be under control of a board of five members; the Secretary of the Board of Agriculture, President and Professor of the State Agricultural College and two members to be appointed by the Governor; these managers shall have power to decide where the station shall be located.

A bill was reported from the committee and passed to be engrossed, to amend chapter 61, laws of 1874, entitled an act to incorporate the Sandy River Railroad Company.

The following passed to be engrossed: An act to amend the charter of Ocean street Railroad Company; an act to amend section 13 of chapter 3 of Revised Statutes relating to lands reserved for public uses; act to amend chapter 55 section 1 of Revised Statutes in relation to libraries, charitable institutions and public cemeteries; act to amend section 1 chapter 26 of the Revised Statutes relating to pauper settlements and section 1 of chapter 22 of the Revised Statutes relating to boundaries of fences; an act to condense and amend section 1 of chapter 92 of the public laws of 1872; an act to authorize the Monson Hotel Company to navigate lake Hebron in the town of Monson; an act to extend and amend the charters of the Penobscot Boom Company corporation and of the Penobscot Lumbering Association; an act in favor of the Maine General Hospital for the years 1883 and 1884; an act to incorporate the Merchants' Marine Railway.

House.

Ought to pass was reported on an amendment to the law relating to taxes.

Same on an act to incorporate the Mechanic Falls, Poland & Gray Railroad Company; same on an act to incorporate the Sabattus and Auburn Monument Association; same on an act to incorporate the Portland Trust Company; same to enable cities and towns to hold money for cemetery purposes; same on an act to incorporate the Aroostook Improvement Company; the same to amend the charter of Fessenden Manufacturing Company; same to incorporate Rangely, Telephone and Telegraph Company; same to amend chapter 211 section 3, public laws of 1881.

Leave to withdraw was reported in order to the graduation of punishment for the prevention of criminal offences; also to establish the manner of holding meetings of village corporations; also section 2 chapter 58 public laws of 1881, relating to the bounty on eagles. Passed to be engrossed: An act to prevent the fraudulent removal or conveyance of mortgaged personal property; also an act to incorporate the Bar Harbor Water Company.

An act to authorize the erection of piers and booms in Aroostook river; act to prevent the throwing of coal tar &c., into the Penobscot river; act amending the charter of the Maine Wesleyan Seminary.

The first reading constitutional amendment came up by assignment. An amendment was offered to put the order under the 10 minute rule. It was defeated 80 to 43 and the amendment was defeated—providing for a secret ballot. The matter was then laid on the table and the House adjourned to the afternoon session without a vote.

A BRILLIANT EVENT.

The Lewiston Reception.

LEWISTON, Feb 1. The reception and ball in honor of Governor Robie and Staff at City Hall this evening, was the most brilliant and dressy affair that ever occurred here. There was an immense crowd. A party of fifteen couples from Portland, parties from Augusta, Bath, Bangor, Waterville and other parts of the State, the Governor, wife and daughter, and the Governor's Staff and numerous members of the Legislature were present. There was an unusually large array of rich toilets on the floor. The hall was decorated with streamers, draperies, banners, shields and flags of all nations. The Governor is served under a marquee of crimson and old gold velvet.

OLD ENOUGH TO KNOW BETTER.

An Old Offender Captured.

ROCKLAND, Feb. 1. Early this morning Deputy Marshal Thomas discovered Nathan Richards in the grocery store of E. H. Wilson and captured him with two pillow cases of plunder. Richards was bound over in the police court in $500 sureties. He is an old offender, having served several terms in the State Prison for breaking and entering. He has been living here for some time in charge of Robert Crocker's farm. His age is 67.

MILITARY COURTESIES.

The Auburn Light Infantry at Haverhill.

HAVERHILL, Mass., Feb. 1. Auburn Light Infantry, Capt. Frank Merrill, arrived here to-day as guests of the Haverhill City Guards. A street parade occurred; the Eighth Regiment Band furnishing music. Hon. G. F. Woodman, Mayor of Auburn, Col A. M. Sprague and other distinguished gentlemen came with the company. A complimentary ball occurred in City Hall in the evening. Mayor How entertained Mayor Woodman.

ACCIDENT ON THE KATAHDIN.

Capt. Mark Ingraham, the Pilot, Injured

ROCKLAND, Feb 1. Last evening while the steamer Katahdin was on her passage down river she was struck heavily by ice, throwing Capt. Mark Ingraham, the first pilot, over the wheel and injuring him very seriously.

Death of a Clergyman.

BELFAST, Feb. 1. Rev. Jerome Harris, one of the oldest Universalist ministers in Maine, died at Stockton to-day, where he has resided for 30 years, aged 69.

THE PACIFIC BANK.

Results of Receiver Price's Washington Journey.

WASHINGTON, Jan. 31. L. M. Price, Receiver of the Pacific Bank, late this evening finished his conference with Mr. Knox, Comptroller of the Currency, as to the affairs of the bank, and left for New York. The conference between Receiver Price and the Comptroller has lasted the greater part of two days. All the details of the condition of the bank, so far as they were ascertained, were considered. It is considered a wiser policy, both by the Comptroller and Receiver, to withhold from present publicity much which relates to the bank, in the belief that publicity would injure the prospects of the creditors and prevent the collection of some assets. For this reason it has been decided not to make public the assets of the bank. It is probable that these facts will become public as the Receiver shall gradually proceed to collect the assets in the courts, which will be the only way in which some of them can be collected. Another point decided is that as soon as practicable the Receiver, in his own name, shall proceed in civil suits against the Directors. The investigation into the propriety—or, in fact, the possibility—of bringing these suits has disclosed what, perhaps, may be regarded as a defect in the National Banking act. It appears there is no specific section under which civil suits in these circumstances can be brought. Section 5,209 applies to criminal proceedings, and the Receiver has not discovered any embezzlement on the part of the Directors, or such other acts specified in the section, as would warrant him in proceeding against the Directors criminally. As for civil suits they will have to be brought under the common law on the ground of gross negligence in office. There is, as stated, no provision of the Banking act and, so far as is discovered, no other provision in the federal laws which is particularly applicable to such a case. Mr. Price will remain in New York a day or two to examine into some of the collateral branches of the Pacific Bank matter in that city, when he will return to Boston.

A BIG BLAZE.

Loss About $500,000.

NEW YORK, Feb. 1. A fire this morning on pier 36, North river, occupied by the Inman Steamship Company, broke out among some cotton. The whole pier caught fire and at 9 o'clockes still burning. Most of the buildings on the pier and their contents were consumed. The loss is roughly estimated at $1,000,000. The steamer Egypt, of the National Line, lying at the pier, caught fire. She was towed into the stream and the flames were extinguished after she had been greatly damaged. The entire fire department and two fire boats are at work on the flames.

Later.

Of the large covered sheds on the pier nothing remains. The pier itself was burned down to the spiles upon which the structure rested along the water's edge, and the fire is still burning. Throngs of people are around the scene. The "Egypt" lies out in the stream with her port side scorched and her rigging and standing gear burned and blackened. Beyond the pier itself and its contents the loss proved inconsiderable. The "Egypt" is of iron and $1.000 or $2.000 will mend her injury; in twenty-four hours she will be in sailing order. The wind blew directly in from the river, and only this fact saved the surrounding shipping from destruction.

The Savannah steamer Chattahoochie lay at pier 35 exposed to the full force of the flames, but was hardly scorched, its crew being on hand with hose and pump. At pier 37, on the north, the German ship Henry caught fire and was towed out in the stream with rigging aflame; she was, however, not badly damaged. An Erie barge loaded with flour was caught in the slip and efforts made to tow her out were unavailing. The wood work on the deck caught fire and a dock load of flour in bags partly burned. On the bulkhead at the end of the pier a large quantity of crockery in crates, carboys of acid and other merchandise was stored. The firemen succeeded in saving the largest portion of this. Longshoremen were at work on the end of the pier unloading the Egypt when the fire broke out. It was feared that some of these had been burned. This fear in great measure has been dispelled this morning by the statement of the engineer who discovered and fought the fire that the firemen came. It is still possible that some may have lost their lives, but it is not probable.

The Latest.

Superintendent Brewster, of the Inman, stated that the total loss would amount a least to $500,000. It is believed the company is partially insured on the pier which was built last year at a cost of $150,000. All books, papers and documents are gone.

FROM WASHINGTON.

A Call for Bonds.

WASHINGTON, Feb. 1. The Secretary of the Treasury to day issued the 120th call for the redemption of bonds of the five per cent. funded loan of 1881, continued at three and one-half per cent from August 13, 1881. The call is for $15,000,000.

NEW JERSEY.

Thoroughly Indicted.

JERSEY CITY, Feb. 1. The grand jurors have presented twelve indictments against Boyce, ex-President of the wrecked City Bank, nine against Shaw, the cashier, and five against Beach, the bookkeeper.

NEW HAMPSHIRE

A Sad Accident.

DOVER, Feb 1. Annie Fernald fell through Dover Point bridge on the rocks this morning and died in three hours.

Grand Army Encampment.

LAKE VILLAGE, Feb. 1. The Department of New Hampshire, Grand Army of the Republic, convened in annual session here this afternoon in Moore's Opera House. About 200 Grand Army members are present, including visitors. Only a small amount of business has been done. Col. John C. Linehan, of Fisherville, was elected Department Commander, and Capt. Sewall Tilton, of Raymond, Senior Vice Commander. A collation was served by the citizens of the town.

This was followed by speeches, in which ex-Commander Col. M. A. Haynes, of Lake Village, Junior Vice Commander-in-Chief Geo. Range, of Maine, Gen. M. T. Donohue, of Boston, Commander-elect Linehan, Senior Vice Commander-elect Tilton, and others participated.

BUSINESS TROUBLE

Fears that the Union Iron and Steel Company of Chicago will be obliged to Suspend.

CHICAGO, Feb. 1. The announcement that the Union Iron and Steel Company had mortgaged their property for $1,000,000 gave rise to rumors of their failure and the President admits to-night that they may have to suspend. A levy was made on their works to-day on a confession of judgment for $38,000.

Their troubles are due to the low price of rails and high price of labor. The Connecticut Mutual Life Insurance Company hold a mortgage for $500,000 on the property. The value of the company's plant and stock is estimated at $500,000 and employs over 2,000 hands.

CONDENSED DESPATCHES.

XLVII CONGRESS—Second Session.

Senate.

WASHINGTON, Feb. 1. Mr. Blair presented several petitions of citizens of Virginia, South Carolina, Alabama, North Carolina, Georgia, West Virginia and New Mexico for national aid to common schools and Mr. Mahone presented similar petition from Virginia. Mr. Morrill offered a resolution suspending so much of the act of Feb. 28, 1878, as authorizes and directs the Secretary of the Treasury to purchase silver bullion, at a market price, not less than $2 000,000 worth nor more than $4,000,000 worth per month, and cause the same to be coined into silver dollars as fast as purchased; referred to the Committee on Finance.

Mr. Hoar offered a resolution, which was agreed to, directing the Committee on Education and Labor to inquire into the expediency of providing by law against the employment of convict labor by the United States public works or by contractors under the United States. Mr. Mahone presented the credentials of Mr. Riddleburger, Senator-elect from Virginia.

The Tariff bill was then taken up the question being on Mr. Frye's amendment proposing ad valorem duty of 40 per cent. upon all sugars. Mr. Beck said he thought this proposition was more in the interest of the refiners than the scheme of the Committee on Finance.

Mr. Morgan said it might seem strange that he (Morgan) a Southern man should favor a low duty on sugar, but he thought that where there was so wide a range of articles from which to raise revenue if discriminations were to be made or articles in general use they ought to be made in favor of the consumers.

Mr. Morgan read Mr. Kenner's recently published letter to a glucose dealer in Buffalo, and said it contained a distinct proposal to enter into a combination to defraud the whole country. He regretted that any Southern man, or any man, should have placed himself in such a position as that in which Kenner was put by this letter.

Mr. Maxey—Mr. Kenner showed his hand a little more plainly than the rest of the commission, but they all held the same hand.

Mr. Frye said he was satisfied that a uniform duty of 40 per cent on all sugars would be unfair to refiners and therefore he modified his amendment so as to make the duty on all sugars under No. 10 Dutch standard 35 per cent., and on sugars above No. 13, 45 per cent. Mr. Morrill said the duties upon sugar have been specific for more than 20 years and that no other article so strongly justified specific rates. Mr. Rollins said he had understood Mr. Sherman to say Tuesday that the committee's report would reduce the duty on sugar to 30 per cent and the Senator from Rhode Island (Aldrich) that it would make the duty 45 per cent and he wished to know which was correct.

Mr. Sherman said that his computation, heretofore presented, was exactly correct. Mr. Aldrich insisted that the committee's schedule would make the duty about equivalent to 45½ per cent. ad valorem. If the rate stated by the Senator from Ohio, 32 per cent., had been collected on sugars imported the last year, the revenue would have been less than $27,000,000; the actual receipts were nearly $47,000,000, so that the bill of the committee, as interpreted by Mr. Sherman, would make a reduction in the revenue derived from sugar of nearly $20,000,000. Mr. Rollins asked how much the reduction would be according to Mr. Aldrich's estimate.

Mr. Aldrich replied that it would be $8,448,000.

Mr. Kellogg said Frye's amendment if adopted would ruin the Louisiana sugar producers. Mr. Frye's amendment was rejected. After amendments were offered by Messrs. George and Kellogg, which were lost, the substitute offered by Mr Morrill on behalf of the Committee on Finance for the sugar schedule in the Commissioner's bill was then adopted. Mr. Morrill offered an additional amendment providing that this schedule should go into effect on the 1st of April, 1883, but withdrew it saying that he would offer it again when the bill should have been reported from the Committee of the Whole to the Senate.

Mr. Kellogg offered an amendment for an additional duty of 65 per cent on sugar and all products named in the schedule imported from countries where they are produced by slave labor; rejected. The consideration of the sugar schedule being concluded the Senate took up the tobacco schedule. Mr. Hawl y offered as a substitute for one paragraph as follows: Tobacco in leaf, unmanufactured and not stemmed, when the greater portion of the bale, box or package, is suitable for wrappers, 75 cents per pound on the whole contents of the bale, box or package, if stemmed $1 a pound. All other tobacco in leaf, unmanufactured and not stemmed, 35 cents a pound; tobacco stems 15 cents per pound.

Mr. Hawley's amendment, ending with "$1 per pound," was lost. The remaining provisions of Hawley's amendments were agreed to. The portion rejected was then modified by Mr. Sherman and was adopted as follows: Tobacco, in leaf, unmanufactured, when the greater portion of the bale, box or other package is suitable for wrappers, 75 cents per pound upon the whole contents of said bale, box or other packages. The amendment of the Finance Committee, fixing the duty on cigars, etc., at $2 50 a pound and 25 per cent. ad valorem was adopted.

The consideration of schedule G (provisions) has been entered upon. Mr. Bayard moved to strike out the duty of 20 per cent. on live animals; rejected. Mr. Bayard moved to strike out the duty of one cent a pound on beef and pork; lost. Mr. Vance moved to make the duty on cocoa 5 cents a pound instead of 2 cents; lost. The provision schedule having been disposed of schedule H (liquors) was taken up and some progress made when the Senate, at 9.35 P. M., adjourned.

House.

Mr. Kelley, of Pennsylvania, asked that an agreement should be entered into whereby the House should sit until 6 o'clock every day that the Tariff bill is under consideration. Mr. Morrison, of Illinois, regarded the request as a proper one, and a tacit agreement was entered into as suggested by Mr. Kelley.

The House at 11:15 went into Committee on the Tariff bill. Mr. Ellis, of Louisiana, moved to strike out ten per cent. duty on carbolic acid. Mr. Kelley intimated his approval and the amendment was withdrawn for the present and will be considered later.

Mr. Carlisle, of Kentucky, moved to place sulphate of iron and copper on the free list. Mr. Kelley stated that he had no objection. Agreed to.

Mr. Tucker, of Virginia, moved to reduce the duty on brown acetate of lead from 4 to 3 cents per pound. Mr. Horr, of Michigan, opposed the amendment contending that the lead mining industry required protection.

Mr. Kasson said that it was not right to keep up the high duty on this article of lead because of the poor lead mines of the country; he was a protectionist for national interests and not for private interests; it was not the principle of national protection to go down to the poorest enterprise the country could show and make that profitable; that was a bounty to individuals and he was opposed to it. The tariff commission had put lead at a rate which protected the average lead interest and he hoped that those members who were for the protection of the nation and not for the protection of individuals would not be crowded to the wall on this question of protection. He was willing to go to the utmost length to protect the national interests. He was not willing to go to the length of making a bad investment a good one at the public expense. [Applause on the Republican side.]

Mr. Kelley, of Pennsylvania, appealed to the committee to stand by the vote on lead as fixed by the Commission. It was essential in order to build up the lead industries of the West. The amendment was lost 80 to 90. Messrs. Kasson of Iowa, and Anderson, of Kansas, voting with the Democrats, and Cassidy, of Nevada, Jones, of Texas, and Frost, of Missouri, with the Republicans.

Mr. Morrison, of Illinois, moved to reduce the duty on white acetate of lead from 6 to 5 cents per pound; lost. On motion of Mr. Kelley the clause imposing a duty of 10 cents per pound on white acetate of lead was struck from the bill.

Several motions were offered, a few of which were agreed to increasing and reducing the duty on certain articles in the chemical schedule. On motion of Mr. Kelley at 6 o'clock the committee arose and the House immediately adjourned.

FRANCE.

A DISCUSSION IN DEPUTIES.

M. FABIER'S BILL PASSED.

PARIS, Feb. 1. In Deputies, to-day, M. Fallieres argued that Count De Paris by recognizing Count De Chamford had reaffirmed the claims of the Bourbons. The Republic, therefore, was justified in taking precautions. He did not ask for a wholesale expulsion of Princes, as such a violent measure would affect some inoffensive persons. The present measure did not threaten the army as it was aimed only against the system of appointment by virtue of royal birth, which was derogatory to the rules of promotion.

It was unnecessary that the bill should provide against the event of a Congress of the two Chambers electing a prince as President of the Republic, as it simply enacted precautions and did not claim to place obstructions in the way of any manifestation of the popular will. Mr. Madier de Montjou, Republican, urged the immediate expulsion of all princes. The general debate on the government's proposals was then declared closed and the Chamber decided, by a vote of 396 yeas to 134 nays, to pass to the discussion of M. Fabre's compromise. Mr. Billire's proposal, banishing the Orleans princes, was rejected by 377 nays to 120 yeas. M. Fabre's bill, giving the government discretionary power in regard to the expulsion of princes, was passed by a vote of 343 to 163, and the Chamber adjourned for a week.

HEART DISEASE.

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles or dyspepsia while if the truth were known, it's recklessness that the heart is threatened Dr Clendenning, startlingly says "one-half of my subjects show signs of heart disease."

The heart weighs about two ounces, and we men a merely eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders It is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamps for Dr Graves' thorough and exhaustive treatise

THE PUREST AND BEST

Remedy Ever Made.—It is compounded from Hops, Malt, Buchu, Mandrake, and Dandelion

The oldest, best, most renowned and valuable medicine in the world, and in addition it contains all the best and most effective curative properties of all other remedies, being the greatest liver regulator, blood purifier, and health restoring agent on earth.

It gives new life and vigor to the aged and infirm. To clergymen, lawyers, literary men, ladies, and all whom sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an appetizer, tonic, and mild stimulant, it is invaluable, being highly curative, tonic and stimulating, without being intoxicating

No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable once in a while, use Hop Bitters and save your life Hundreds have been saved by so doing, at a moderate cost. Ask your druggist or physician Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters

If you have lameness in the joins, with frequent pains and aches in small places of the thigh, scanty, painful and frequent discharge of urine, filled with pus, and which will turn to gravel standing, a voracious appetite and unquenchable thirst, harsh and dry skin, clammy tongue, often darkly furred, swollen and inflamed gums, dropsical swelling of the limbs, frequent attacks of hiccough, inability to void the urine, and great failure in attempting it—you are suffering from one form or Kidney or Urinary Complaint, such as Bright's Disease of the kidneys, stone or inflammation of the bladder, gravel and renal calculi, diabetes, urinary stricture and retention of the urine, and Hop Bitters is the only remedy that will permanently cure you

Remember, Hop Bitters is no vile, drugged, drunken nostrum, but the purest and best medicine ever made, and no person or family should be without it.

Don't risk any of the highly lauded stuff with testimonials of great cures, but ask your neighbor, brings the pastor or physicians what Hop Bitters has and can do for you and test it

A Good Odd Fellow.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how he obtained the Means to Regain his Health.

Mr Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinnipiac Lodge No 1 (the oldest organization of its kind in the State of Conn). He is a man much respected in New Haven, so our reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr Kennedy's FAVORITE REMEDY is the most exc llent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner As I keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number so, and then they will be delivered earlier than if the same is put on at the office Carriers make two deliveries daily, the first trip supplying the extremes of their routes

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M Sundays from 8½ to 9½ A M

Any irregularities in the Carriers' department should be reported to the office

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the cashier's window) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge

First class envelopes of above furnished at $2 20 per thousand.

Stamps cut from Stamped Envelopes

cannot be used to prepay postage The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at this office.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence It frees the system from all foul humors enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed and my general health greatly improved I feel very grateful for the good your medicine has done me Yours respectfully, JAMES ANG O'BRIAN."

148 Sullivan St., New York, June 24 1882.

☞ All persons interested are invited to call on Mrs. O'Brian, also upon the Rev J. E. Wilde of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of AYER'S Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Box on Herald, B. W BALL, of Rochester, N.H., writes, June 7, 1882 "Having suffered severely for some years with Eczema and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure I consider it a magnificent remedy for all blood diseases"

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

To the Honorable Judge of Probate for the County of Penobscot.

The undersigned, guardian of George F Jack, minor heir of Benjamin F Jack, late of Bradford, in said County, deceased, respectfully represents that said minor is seized and possessed of the following described real estate viz:

All the right, title and interest of said minor in and to a certain parcel of real estate situate in said Bradford and known as the "Ross farm," being the same conveyed to said from Jeremiah Ross, by Benjamin F Jack, dated April 28, 1868, and recorded in the Registry of Deeds for Penobscot County, Vol 515, page 360, to which deed and record thereof reference is made for a description of said premises subject to the widow's rights therein, it being the same described in said deed recorded in the Registry of Deeds for said County, Volume 515, page 360.

That it would be for the benefit of said minor that said real estate should be sold, and the proceeds thereof put out at interest or otherwise used for his benefit.

She therefore prays that license may be granted her to sell and convey the above described real estate at public or private sale, according to the requirement of law.

December 26, 1882 MARY E JACK.
